

Mohammad Reza Jamalizadeh Hedeshi

A: One Verdi Park, Bucharest | M: [REDACTED] | L: [REDACTED] | E: [REDACTED]

PROFILE SUMMARY

- Fund management and governance executive overseeing a listed multi-asset fund (€600m+ AUM) and a pan-European artificial intelligence and robotics investment platform. Combines global blue-chip consulting with executive and board experience, focused on strategy, operating models, and technology-enabled transformation.
-

PROFESSIONAL WORK EXPERIENCE

Chief Executive Officer, Inevitable Ventures

Romania, Europe | *January 2025 – Present*

- Founded a pan-European AI and robotics investment platform, designing and delivering fund strategy, governance, infrastructure, and end-to-end deal execution. Raised multi-million-euro commitments and begun deploying into inception-stage companies that have since expanded internationally and secured follow-on funding rounds.

Fund Manager, SAI Muntenia Invest

Bucharest, Romania | *November 2024 – Present*

- Steer strategy and day-to-day management of Longshield Investment Group's €600m+ multi-asset portfolio (equities, fixed income, real assets), aligning deployment and rebalancing decisions with the fund's mandate, risk appetite, and legal limits. Drive periodic portfolio and company reviews, convert economic-financial analysis into security pricing and investment theses, and present actionable investment and exit proposals to the CEO and Board.
- Own investment governance and corporate-action workflows for portfolio companies, from preparing and executing representation mandates in general meetings to reviewing and co-signing contracts that affect portfolio holdings and the implementation of CEO and Board decisions. Oversee end-to-end dividend and other cash-flow processes, ensuring distributions and maintaining accurate records of shareholdings, capital changes, and sanctions.
- Lead cross-functional transformation initiatives beyond the investment remit, partnering with IT and Operations to create business cases and delivery plans which modernise infrastructure (server upgrades, SharePoint rollout) and processes (AI-assisted investment monitoring, research, and investment proposals) to innovate core operations.

Senior Consultant, KPMG UK

London, UK | *January 2023 – October 2024*

- Led large-scale enterprise technology transformations, directly managing consulting teams of 4–8 and client teams of 30–200 FTEs across strategy, design, governance, and delivery. Flagship projects included:
 - **UK Government Data Services Transformation (Aug–Oct 2024):** Led the strategic delivery plan for a £3 billion+ IT transformation to a hub-and-spoke data services model, defining implementation sequencing to align data, digital, and AI capabilities.
 - **Department Creation at Unicorn Technology Company (Feb–Mar 2024):** Designed and operationalised programme management office for a technology scale-up; established governance framework and controls for £15M Microsoft Dynamics 365 ERP programme, deliverables produced 30% faster than allocated timeline.
 - **FTSE 100 Healthcare Insurance Global Strategy (Oct 2023–Jan 2024):** Led definition of a 3-year technology refresh agenda across Europe, Asia-Pacific, and Latin America, structuring 10 strategic technology themes and eliciting £2 million+ in subsequent client transformation RFPs.
 - **FTSE 100 Energy Technology Strategy (Jan–Sep 2023):** Managed a comprehensive maturity assessment and 5-year technology strategy roadmap, identifying 50+ transformation opportunities, rationalising £1 billion+ of IT investment, and generating £500k+ in additional consulting work.

Associate Consultant, Capgemini Invent

London, UK | November 2021 – December 2022

- Delivered technology strategy, innovation, and operating model frameworks for blue-chip enterprises and public sector departments. Conducted capability maturity assessments and produced roadmaps and board-level business cases for C-suite decision-making. Flagship projects included:
 - **FTSE 100 Water Utility Operating Model Transformation (Sep–Dec 2022):** Designed and piloted a project-to-product service management transformation across the ITIL lifecycle (design, operation, transition). Led a 3-person team to produce 15+ transformation artefacts, including value streams, governance frameworks, and KPI definitions. Successfully piloting refreshed Incident, Release, Knowledge, and Change Management processes with client teams.
 - **FTSE 100 Energy Technology & Portfolio Strategy (May–Sep 2022):** Project manager overseeing 11 resources across 4 workstreams (technology strategy, operating model, portfolio management, and technology business management). Reported to CEO and CIO on a 5-year £3 billion+ digital investment plan targeting £250 million+ benefits over 3 years, synthesising status across 70+ IT investments and 1,000+ FTEs into concise executive briefings for the board, C-suite, steering committees, and external auditors.
 - **UK Government Innovation Lab Governance (Mar–May 2022):** Designed the governance model for a National Innovation Lab, defining a lean end-to-end process for technology pilots that delivered around 30% IT cost savings and strengthened business/IT partnering. Planned and led a 6-week pilot validating the use of homomorphic encryption in federated machine learning use-cases to inform target data architecture and future innovation portfolio decisions.

Retail Investor, Self-employed

Remote, UK | March 2017 – August 2021

- Developed investment discipline through early participation in digital assets markets, managing a portfolio across major cryptocurrencies (BTC, ETH), tactically rebalancing and trading smaller alt-coin positions (XRP, BNB) into core holdings, and applying systematic risk management frameworks through multiple boom-bust cycles.

BOARD AND NON-PROFIT LEADERSHIP

Board Member, Voluthema Property Developer

Bucharest, Romania | November 2024 – Present

- Non-executive director responsible for governance oversight of a multi-asset real-estate company within Longshield Investment Group. Approving quarterly/annual IFRS financial statement reviews, capital allocation and major transactions, and ensuring compliance with market standards. Approximately 10–15 board meetings annually.

Programme Lead, CodeYourFuture

London, UK | September 2022 – August 2024

- Established and scaled Digital Literacy programme pilot in London, delivering digital skills training to 200+ refugees and underserved communities. Trained 20+ volunteer instructors, designed curriculum framework, secured training provider partnerships, and led expansion across 4 additional cities.

HIGHER EDUCATION
